

### Color transitions examples

When a bar represents a standard window action, it should be colored with the main identity company colors.

One word action. Negative context  
Max buttons (1)

Decision area.

Special action button.

### Window changes when system performs actions

The title bar switches its content for a "working" status message

The whole window goes grey

The decision area switches to grey. All buttons are wiped, but one cancel should pop

### Real world example

## Ventanas modales
